

Quick DaySmart Registration Guide

“When I’m trying to register for public skate on Saturday at 12:30, the website only shows the first day of the month at 2:30!”

Don’t worry, that’s not a problem! That “register” button actually takes you to the calendar to select what days you want to attend the public skating session. The next page should show you two different drop-down menus with each different timeslot we have throughout the month!

All drop-down menus are marked with “Select individual events” in light blue. Make sure you’re selecting individual events if you’re only registering for ONE day!

This process is the same for Stick & Puck and Morning Pick-up registrations as well!

If you're trying to register a child who is 5 years old or younger, make sure you're selecting the correct individual! If you haven't already added them to your DaySmart account, make sure to do so or that event will not show up for you. This is the same for special events that have different age group registrations.
